Healthcare Administration Minor (HCA)

The BUA department strives to prepare students to take their place in society and to thrive in whatever roles they choose. The successful student who completes the Healthcare Administration major will be skilled in combining compassion and caring for people with principled business leadership.

The successful student who completes the program will:

- · Be able to analyze problems;
- · Be able to communicate ideas effectively in writing;
- Demonstrate broad knowledge of the functional areas of business: accounting, economics, finance, management, and marketing; and
- · Demonstrate knowledge of the healthcare industry.
