

BUAR460: Advanced Project Management Practicum

This course is intended as a culmination of a student's work in the Project Management Major. Students will work in groups to manage a simulated project from scope to completion - encountering - and overcoming - challenges and complications along the way. This course will also provide students with an overview of the product life-cycle, governance, and other topics to help contextualize project work.

Credit Hour(s): 3

Prerequisites:

BUA125

BUAR105

BUAR215

BUAR315
